DETAILED ACTION

Response to Amendment

1. The amendments presented by the applicant have been duly noted. However, further review of the amended claims has prompted the presentation of new objections presented below. In view of such, the previous rejections in the office action have been withdrawn.

Claim Objections

2. Claims 22-40 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 42-53. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k). The extra language in the preamble of claims 22 and 33 of “for an adsorption heat pump” is a statement of intended use which does not add anything to the composition of the method. Thus, these claims recite the identical limitations for the method having no difference in scope, and are duplicate claims.

Allowable Subject Matter

3. Claims 1-21 and 41-62 are allowed.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chen-Wen Jiang whose telephone number is (571) 272-4809. The examiner can normally be reached on Monday-Thursday from 8:00 to 6:30.
